nine minutes after five in the morning.

For this yeare of
our Lord 1604. accor-
ding to the account and
computation of the
Church of England.

The Golden number.
The Circle of the Sunne.
The Dominical letter.
The Epact.
The Roman Indiction.
The Age of the Sunne.
The Age of the Moon.
The Age of the Sunne.
The Age of the Moon.
The Age of the Sunne.
The Age of the Moon.

Between Christmas and Shrove-
tide, is viii. weekes
Sundates after Easter.

For the Roman Indiction
see account, note that their
Golden number is
The Circle of the Sunne
The Dominical letter
The Epact
The Roman Indiction
The Age of the Sunne
The Age of the Moon
The Age of the Sunne
The Age of the Moon
The Age of the Sunne
The Age of the Moon.

General rules to be observed.

Note that it is not convenient to let
blow, whilst the Moone passe by
Tau, Capr. Gem. Leo. and Scor. or the
Moone nere the change, full or quar-
ter: or being affected by Saturn. or Mars.
The Moone in Aries well effected,
is a fit time to let blood, such as be of a
Sanguine or Phlegmatic complexion.
The Moone in Canc. let blood the
cholericke complexion.
The Moone in Aqua. or Libr. letteth
the Melancholy.
Shewre your heepe to have them
deepe fleeced, pole or cut your hayeto
anyd balines: let and remove trees
to have them grow the better and faye-
rer, in the increase of the Moone.
The wane of the Moone the being
in Aries, Sagit. or Capri. maketh an ap-
proch unto to Lib. or geid cattell.

In heade and face is Aries place.
and Taurus in the necke:
But arms & hands in Geminis bands,
doe suffer low and weakke.
Cancer doth possesse the brest:
the ribbes and stomacke flout:
And Leo backe and heart he hath,
thereof ye neede not doubt.
Virgo belly and bowels,
take thou with all these paines,
For Librae the buttookes hath,
the naill and the raignes
Scorpio the plute partes,
to have loe still the cries:
For sure the is that Sagitarie,
possesse both the thighes.
Then Capricorn must rule the knees,
for legges to Aquarie long.
And Pisces purchaseth the feete,
thereof doe heape wrong.
